

Briefing Paper

Elements/Components Comprehensive State Water Plans

Each state identifies elements/components/major issue areas in its comprehensive state water management plan. The states that identified the identical or nearly identical plan element have been marked the same. Other elements may have been identified differently but have similar meaning, therefore some of the elements identified below may overlap among the states.

Comprehensive Water Plan Elements	Florida	Hawaii	Kansas	Missouri	Montana	Nevada	Oklahoma	Utah
General Issues	X						X	
Water Supply/Allocation/Inter-basin Transfers	X	X	X	X	X	X	X	X
Flood Protection & Floodplain Management	X		X	X		X	X	X
Water Quality	X	X	X	X	X	X	X	X
Natural Systems/Resource/Instream Flow Protection	X	X			X	X		X
Wetland & Riparian Management			X					
Coordination & Evaluation (public ed/invlmt)	X		X		X	X		X
Agricultural Use, Development & Efficiency		X			X			X
Local Government Water Use, Development, Assistance, Water/Wastewater Systems		X				X	X	X
Water Conservation/Reuse/Drought			X	X	X	X	X	X
Water Rights Management/Water Law/State Water Rights & Federal Hydropower Licensing			X	X	X		X	X
Water Based Recreation			X			X		X
Data Collection, Management & Research/Water Information			X		X	X	X	
Interstate Water Issues				X				
Water Storage/Aquifer Storage & Recovery					X			X
Watershed Planning & Management						X		X
Reservoir Operations							X	
Water Marketing/Transfers							X	X
Problem Mediation & Arbitration							X
